

Who We Are

About Us

Ultimate Support Service, Inc. was established to address the growing need for compassionate, person-centered support services for individuals with developmental disabilities in Maryland. Our approach is designed to enhance existing support systems while empowering each individual via an unconventional program to achieve self-determined goals related to independence, community integration, and social engagement.

Mission

Ultimate Support Service, Inc. (USS) is committed to providing community-based activities that foster personal growth, skill development, and increased independence for individuals with developmental disabilities. Our mission is to promote community integration, teach socially acceptable behavior, and empower individuals to learn self-advocacy skills, ensuring they can thrive in inclusive, supportive environments with individuals without disabilities within Maryland. At USS, we do not only care beyond limits, but we support every journey.

Vision

Ultimate Support Service, Inc. (USS) envisions an inclusive future where individuals with developmental disabilities across Central, Western, and Southern areas of Maryland live empowered, independent, and fulfilling lives with dignity, supported by compassionate, innovative, and person-centered care. Our specific services are Community Residential Services, Personal Supports Services, Nursing Support Services, Supported Living Services, Community Development Services, and Transportation services.

OUR SERVICES

Community Living – Enhanced Supports

We offer a safe, structured environment for those requiring higher levels of support, with a focus on building life skills, independence, and meaningful connections. Our caring team provides around-the-clock assistance, ensuring every resident receives the attention and resources they need to thrive.

Community Residential Services

Experience a supportive, home-like atmosphere where individuals are empowered to live with dignity and independence. Our residential services offer personalized care, fostering community connections and a sense of belonging. With tailored assistance for daily living, we create a comfortable environment where residents can flourish.

Personal Supports Services

We deliver compassionate, individualized support to help people reach their full potential in their daily lives. From assistance with personal care to guidance in navigating new challenges, our goal is to empower each individual on their journey. Our support services are designed to adapt to unique needs and preferences, promoting confidence and growth.

Nursing Support Services

Our dedicated nursing team provides specialized health care services, tailored to each individual's medical needs. We focus on holistic well-being, managing health conditions with professionalism and compassion. Our services are designed to improve quality of life and provide peace of mind for both individuals and their families.

Supported Living Services

For those looking to live with greater independence in their communities, our supported living services offer flexible and customized assistance. We promote self-reliance while providing the care needed to manage everyday tasks in a supportive environment. Our services help bridge the gap between independence and assistance, ensuring each person feels secure and empowered.

Community Development Services

Engage with the community and build social skills through our dynamic programs and activities. Our community development services help individuals connect with local events and groups, fostering social interaction and personal growth. We encourage participation, building confidence and a sense of belonging in the broader community.

Transportation Services

Accessing the community should be easy and stress-free. Our transportation services provide reliable, accessible rides, ensuring individuals can maintain their independence and participate fully in daily activities. From appointments to social events, our transportation services support a full, connected life.
